A cordial invitation
to members of
the A. L. A.

You will find at our exhibit station a new collection of photographs of Library installations, new plans, and interesting views of the famous L.B. furniture in process of construction at our Ilion plant, where today, as for more than a generation past, "precision in production" is the watchword.

QUALITY of construction and design in a product based upon continued study of progressive library practices for over fifty years places Library Bureau in a unique position in the library world. Library Bureau stands for dependability—a reputation that can be obtained only by a lifetime of experience.

If you have a problem in your library, discuss it with our specialists at the L.B. station. We may have solved the same problem last month for someone else. If not, our experience places us in a position to work it out with you.
