The American Library Association's LAMA/CCS Circulation Systems Evaluation Committee is seeking materials which will be helpful to libraries planning automated circulation functions in order to make these materials available through a clearinghouse.

The committee would like to receive the following materials: names and addresses of consultants working in the field of circulation automation; data bases which are available on lease for conversion of files; Requests for Proposals (RFP) which libraries have sent out or will send out soon.

Send all materials to Committee Chairperson, Judith Bernstein, General Library, University of New Mexico, Albuquerque, NM 87131.
