A new bibliography that for the first time lists all current publications of the American Library Association's units is now available. ALA Publications Checklist, 1979: A List of Materials Currently Available from the American Library Association provides bibliographic data on books, pamphlets, journals, newsletters and AV materials distributed by ALA Publishing and each division, round table, and office of the Association. ALA Publications Checklist includes booklists and bibliographies, policy statements, cassette programs, lists of unit publications and membership promotions. More than 1,200 items are cited in 112 pages.

Compiled by ALA Headquarters Library staff and edited by Headquarters Librarian Joel M. Lee, ALA Publications Checklist contains a main title listing and indexes of personal authors, issuing units, and subjects. Citations indicate the unit from which each item is available. The subject index brings together materials on similar topics or special items such as standards and guidelines issued by ALA units.

Information to update ALA Publications Checklist, including citations to new titles and out-of-print items, will be provided in forthcoming issues of ALA's monthly journal American Libraries. Annual revised editions are planned. ALA Publications Checklist (ISBN 0-8389-6367-6) is available for $3 from the ALA Order Department, 50 East Huron Street, Chicago, IL 60611.
