Nominations for the 1979 National Library Services-Resources Section Scholarship Award are now being accepted. They should be submitted by December 15, 1978 to: Robert C. Sullivan, Order Division, Library of Congress, Washington, D.C. 20540.

This award honors the author of an article or book which reflects creative or innovative research in the field of acquisitions, collection development, and related areas of resources development in libraries during the past year. It has been given annually since 1976 by the Resources Section of the Resources and Technical Services Division (RTSD) of ALA.

The winner of the award gets to choose a U.S. or Canadian Library School as the recipient of a $1,000 scholarship donated by the National Library Services, Inc. of Norwalk, CT. That school will then award the scholarship to a student who is concentrating in acquisitions or collection development.

A Resources Section scholarship jury has been charged with identifying the most significant 1978 article or book. The winning author(s) will be announced on April 1, 1979 and the award will be presented at the RTSD membership meeting during the ALA Conference in Dallas, June 1979.

Last year, J. Michael Bruer was the winning author for his article, "Resources in 1976" which appeared in the Summer 1977 issue of Library Resources and Technical Services, v.21, No. 3, 232-248. He chose the George Peabody College for Teachers School of Library Science to administer the scholarship.
