Dear Zeva,

Since I firmly believe that the whole N/C banquet pomp and

panoply is a crock, I'm very much in favor of something like free access to the speeches for anyone (even in an auditorium-type setting) followed by a reception (a small fee charged, maybe, for wine, or even a cash bar) where anyone who wants to can meet the award winners. If ALSC wants to have that silly semi-private reception before the speeches, that's ALSC's problems, but I'm invited to about 6 publishers' private pre-banquet receptions, so it seems redundant to me. I must confess, however,
