Dear Zena:

Thank you for giving me an opportunity to provide input on the Neuburg-Aldenotz Dinner. I have another reason for celebrating the awards. The dinner is too expensive. I know too many persons - ASE members and non-members who would like to hear the acceptance speeches, but cannot afford the dinner.

Perhaps instead of the banquet, if it is decided that food is truly a significant part of the celebration, there could be a wine and cheese reception. The dinner is ponderous - the award giving and the speeches are the heart of the event.

Good luck with your committee!

Sincerely,

Marilyn Steinberg
