News Release: American Library Association

From: Peggy Barber, Director
Public Information Office

FOR IMMEDIATE RELEASE February 1977

Volume II of the Resources and Technical Services Division (RTSD)
Reproduction of Library Materials Section's "Micro-File Series" is now available.

A Survey on Telefacsimile Use in Libraries in the United States by Hans Engelke of Western Michigan University reports on the effectiveness during 1975 of telefacsimile use for interlibrary loans.

Drawing on responses to surveys sent to all state libraries, Engelke compares speed and cost of telefacsimile devices versus telephone and teletype as means of transmitting interlibrary loan requests. Appendices contain pertinent documents received from participating libraries.

This report is available from the Library of Congress' Photoduplication Service on one sheet of positive, silver halide microfiche for $4.50. Unbound electrostatic positive prints cost $19. Both prices include postage.

Orders and inquiries should be sent to the Library of Congress, Photoduplication Service, Department C, 10 First Street, S.E., Washington, DC 20540. Checks should be payable to the Library of Congress Photoduplication Service.

Two earlier items issued in this series, which are also available from the Library of Congress Photoduplication Service, are:
