FOR IMMEDIATE RELEASE

MARCH 1977

The Library Administration Division's (LAD) Buildings and Equipment Section maintains a collection of library building program statements on design and construction of new or renovated library buildings. The programs are available on interlibrary loan from the ALA Headquarters Library.

The collection consists of about 300 statements and includes all types of libraries--college, university, junior college, community college, public, county, regional, branch and a few state, school, special, hospital and institutional libraries.

In order to bring the collection up-to-date and to increase the number of programs in the file, LAD is requesting that librarians and architects who have been involved (within the last three or four years) with new buildings, renovations and additions send a copy of their building program to LAD, American Library Association, 50 East Huron Street, Chicago, IL 60611.

In addition to maintaining a current file, LAD would like to increase the number of programs for state, school, special, hospital and institutional libraries.
