A recently established ad hoc committee of the Slavic and East European Section of the Association of College and Research Libraries will draft recommendations on classification that will be presented to the Library of Congress after the American Library Association's Annual Conference in Las Vegas.

Representatives of the Slavic and East European Section had met during the 1973 Midwinter Meeting of ALA to discuss possible improvements in the Library of Congress Classification System as it relates to the handling of materials on Eastern Europe and the Soviet Union.

The Library of Congress representatives expressed their appreciation at the interest and enthusiasm of the group.

Ivan L. Kaldor, Dean, State University College, School of Library Science, Geneseo, New York, is chairman of the ad hoc committee.
