The Anglo-American Cataloging Rules (1967) is being revised. The target date for publication of the revision is 1977. Organizations and individuals wishing to propose changes in the AACR are encouraged to contact John Byrum, Princeton University Library, who is chairman of the American Library Association, Resources and Technical Services Division, Catalog Code Revision Committee.

An interested organization may choose one of two mechanisms for participating in the AACR revision. An organization may appoint to the RTSD Catalog Code Revision Committee a representative with discussion but not voting rights. The appointing organization would be responsible for financing the participation of its representative. The RTSD Catalog Code Revision Committee will meet 4 times in 1975 and 4 times in 1976. Two meetings each year will be held in conjunction with the semi-annual meetings of the American Library Association. As an alternative to appointing a representative, an organization may choose to request receipt of materials relating to the AACR revision and send specific comments on particular documents to the RTSD Catalog Code Revision Committee Chairman. Organizations wishing to participate in the AACR revision in one of the ways listed above should contact the RTSD Office, American Library Association, 50 East Huron Street, Chicago, Illinois 60611.
