The 1975 World Book-ALA Goals Award has been awarded to the American Library Association's Intellectual Freedom Committee, the Intellectual Freedom Round Table, and the ALA Centennial Conference Program Committee.

Since 1960 the highly coveted annual grant of $25,000 has been provided by the Field Enterprises Educational Corporation to support the ALA's programs in public, academic, and school library service, and to further the Association's goals.

The 1975 recipients were selected by the ALA Executive Board at its spring meeting. The board also voted to memorialize Bailey K. Howard, former chairman of the board of Field Enterprises Educational Corporation. Mr. Howard was instrumental in establishing the grant in 1960.

The J. Morris Jones-World Book-ALA Goals Award has been granted to the ALA Intellectual Freedom Committee and the Intellectual Freedom Round Table for support of an appeal in the case of Moore v. Younger. The aim of the project is the establishment of legal precedent for protecting librarians from criminal prosecution by achieving: 1) Recognition that U.S. libraries are primary First Amendment institutions through which
citizens can have, as a matter of right, access to any work they desire;

2) Legal precedent for protecting librarians from criminal prosecution
for attempting to fulfill the First Amendment rights of library patrons.

The Bailey K. Howard-World Book-ALA Goals Award has been presented
to the ALA Centennial Conference Program Committee to achieve excellence
in the Centennial Conference Program. The project is designed to
make the American public increasingly aware of the contributions libraries
make to society by means of a truly memorable celebration of the ALA
Centennial and the nation's Bicentennial. The ALA Centennial Conference
will be held in Chicago July 18 - 24, 1976.
