Memorandum

To: American Library Association Election Committee
From: Ryan, Hodgins & Associates CPAs
Date: May 1, 2009
Re: Audit for 2009 Election

We have reviewed the internal control procedures of Survey & Ballot Systems, Inc. regarding the processing of the American Library Association's 2009 election.

1. We initially discussed the election process on February 24th and obtained an understanding of the internal processes and procedures relating to this election.
2. We performed an online test batch on March 13th to review the online process and to test the control procedures. We tested 10 council ballots and 10 divisional ballots and compared them to the test batch results. We found 100% accuracy, NO errors, during this process.
3. On April 22nd, we performed an onsite review of the counting process and internal control system to review how the ballots were received, monitored, and secured. We also reviewed the web voting system, process, and security features. Also included was a review of a paper and online test batch.

Based on our observations and sample ballot testing, if all of the ballots processed followed these established internal control procedures, then the final results reported are accurate in all material respects.
