The RSC updates its Action Plan annually, providing an overview for the next three years, with the immediate year's plan being more detailed than the later two years as specific tasks are planned and set in motion.

We have today published our February 2023 update, RSC/Chair/2023/1 RSC Action Plan 2023-2025.

This Action Plan updates RSC/Chair/2022/5 RSC Action Plan 2022-2024. We'd like to draw your attention to the Note at the top of this Action Plan which says "There will be a further update later in 2023, once the RDA Board has published its Strategic Plan". This will be no earlier than the next RDA Board meeting in May 2023, and we are grateful to the Board for permission to publish the current update to the RSC Action Plan.
