

[July 25 2018]

Good morning CC:DA,

Due to the changes in the RSC governance structure, namely the emergence of the regional RDA committees such as NARDAC, the charge for the 3R TF needs to be updated. I will entertain a motion to change the TF's charge.

Current charge:

This Task force is charged with providing feedback and assistance to the ALA Representative to the RSC on issues related to the 3R project.

Proposed revised charge:

This Task force is charged with providing feedback and assistance to the ALA Representatives to the North American RDA Committee (NARDAC) on issues related to the 3R project including, but not limited to, feedback on the beta RDA Toolkit site.

Thank you,  
Amanda
