Description: Researchers and their academic library partners will illustrate their direct Impact on local communities. Speakers will explore the collaboration of researchers and academic libraries involved in community-engaged learning, service and scholarship through 2 current UNLV projects: one that teaches community members about business opportunities using librarian curated resources and strategies, the other an oral history project that engages and strengthens ties within the local African American community.

Our joint program has been funded \$1,120.00 from ACRL.

Two scheduled speakers: Claytee White, Director Oral History Research Center, Univ. of Nevada, Las Vegas (UNLV), Libraries. She will talk about oral history program and service learning.

3. Speakers :

We are exploring possibly two additional presenters: participants in service programs.

We will be getting biographies from speakers.

4. Refreshments:

We are exploring possibly \$1,000 or \$500 needed for catering ice cream sandwiches (for approximately 200 attendees).

We have not yet approached vendor(s) for possible funding.

Both Executive committees may want to discuss whether to release funds for catering.

5. Moderators:

We are exploring who does this introduction.

Is it the same as the EBSS award giver?

One each: ANSS and EBSS.

6. Additional notes:

Publicity, program flier, bibliography, program web page, and timeline are also being prepared.

We have appreciated all committee members who have participated in planning and are working toward implementation of this annual conference program.

Prepared with notes from committee members.
