NMRT Board Member Planning Report

1. Office Name: Liaison Coordination & Support Committee

2. Office Term (Date: Ex. 2005-2006): 2016-2017

3. How do you plan to help committees address the four NMRT goals? (If it does not apply, put N/A.)
By virtue of the function of this committee, we serve a vital role in communicating the opportunities addressed in the four goals and will continue the work of expanding our reach.

4. How do you plan to create a positive committee experience? What type of support do you plan to provide to chairs and committee members, and how often do you plan to provide such support?
Setting the tone of committee work is important. Offering a warm welcome, getting to know committee members a bit, and promoting an environment where questions are encouraged is important. Clear expectations are also very important and should be conveyed early and with each new project.

Our committee has plenty of documentation that is available to committee members. I plan on also leveraging my experience as a committee member on this committee to make my committee members jobs a little easier. I am also open to communication at all times.

5. What future directions do you see your office or NMRT needing to take this year or the following year? What kind of strategies do you envision for addressing projects that affect committees outside of your supervision?

For the LC&S committee, I believe that we need to continue strategically recruiting in either a targeted area (e.g. Divisions) or just in general. Or perhaps we need to put out more than just one call per year.
