

**American Library Association
Annual 2016 Executive Board Meeting
President-Elect Report – Julie Todaro**

Task Force on EDI (calls every two weeks)

Task Force progress including:

- Armbands for awareness and identification for ALA members
- Service and memorial project activities are in place for Annual
- Continued work on survey results from members/with extensive discussion on privacy of survey respondents
- Orlando programming coordination completed for introductions, armband distribution
- Completed for TF recommendations for continued work/implementation
- New Group to carry out recommendations submitted for process, design, chairs

TF on Context for Future Accreditation

Group continues to work. Survey out to employers. Timeline extended for June 2016 Board report/content and instead due in midyear is requested. I have had to miss a number of Board calls. My subgroup begins to put content together later in the summer/early fall.

Appointments

The appointments process should be complete but it seldom is....all done for Kerri at this moment with one chair who asked to resign and has signed back on. All done for APA except for one...The current COC will meet in Orlando on Monday, June 27th over lunch to wrap activities up.

P-E Activities for Orlando

The presidents-elect of the divisions have worked as a team to plan the Inaugural activities.

Presidential Focus

My Advisory Committee is working well and some of my presidential “Libraries Transform” focus on the “expert in the library” and “I’m an expert in...” will be rolled out at the Inaugural.

To be brought out at Inaugural:

- I have been working closely with Keith on the next steps for Libraries Transform.
- We have name badges in the store and at Inaugural events
- We have four more "because" statements with a focus on the professional.

- I met with Laurie Borman on AL and columns.
- I met with Lorelle on putting our Initiative "expert/transform" content on the HRDR website.
- I worked with Miguel on designing new 21st century librarian "profiles" for adding to the Center for the Future content.
- I am putting together a small group to discuss U.S. Presidential issues with ALA and the Washington Office and with Jenny Backus, a bi-partisan political consultant who has been hired to assist us in reaching out in a bi-partisan way.
